MAINTENANCE OF AMERICAN RIGHTS

Had this Government by the use of both informal and formal diplomatic opportunities left no doubt that when we said "strict accountability" we meant precisely what we said, and that we should unhesitatingly vindicate that position, I am confident that there would have been no destruction of American lives by the sinking of the Lusitania. There, we had ample notice; in fact, published notice. Furthermore, we knew the situation and we did not require specific notice. Instead of whittling away our formal statements by equivocal conversations, we needed the straight, direct and decisive representations which every diplomat and foreign office would understand. I believe that in this way we should have been spared the repeated assaults on American lives. Moreover, a firm American policy would have been strongly supported by our people and the opportunities for the development of bitter feeling would have been vastly reduced.—From Mr. Hughes' speech of acceptance.

ONE POULTRY HOUSE FOR TENNESSEE

(By R. N. Crane, Division of Extension, University of Tennessee.)

This house can be built by any one who knows how to use a hammer, a square, a spirit level, and a saw. Five feet high at the rear and nine feet high at the front, with an opening six feet high extending across the front. This opening is covered with one-inch mesh netting. Curtains of domestic flannel across the front on wires above and below the opening. Closed, these curtains protect the chickens in the house from rains and snows.

To accommodate 100 hens the house should be 16 feet wide and 25 feet long.

For the sheeting, it will pay to use cheap dry, mill-run, pine lumber. Pine will not warp as badly as some of the other lumbars. The roof should be covered with a good 3-ply paper, and be tarred and covered with sand every two or three years.

Have the foundation concrete, if possible. If not, keep the joists out of the mud by using large rocks.

THE THINKER.

Back of the beating hammer
By which the steel is wrought,
Back of the workshop's clamor
The seeker may find the Thought,
The thought that is ever Master
Of iron and steam and steel,
That rises above disaster
And tramples it under heel.

The drudge may fret and tinker
Or labor with lusty blows,
But back of him stands the Thinker,
The clear-eyed man who knows:
For into each plow or sower,
Each piece and part and whole,
Must go the brains of labor,
Which gives the work a soul.

Back of the motor's humming,
Back of the bells that sing,
Back of the hammer's drumming,
Back of the cranes that swing,
There is the Eye which scans them,
Watching thru stress and strain,
There is the Mind which plans them—
Back of the brawn, the Brain.

Might of the roaring boiler,
Force of the engine's thrust,
Strength of the sweating toiler,
Greatly in these we trust,
But back of them stands the schemer,
The Thinker who drives things thru,
Back of the job—the dreamer
Who's making the dream come true.

I wrote a piece last week, but failed to mail it. I will try to do better this week, and get this in the mail.

I went to Ryla, Texas, Tuesday afternoon to visit Mr. and Mrs. J. G. Payne and spent a very pleasant day and night. I returned Wednesday.

There is a fine prospect for cotton, and corn is fairly good altho it was damaged for want of rain at the right time.

On August the 27th, I am going out to Arlington. My little niece, Dorothy Bracken, is going to give a dinner in honor of her and my birthday. I anticipate a great time, and the occasion will be forever stamped on my mind.

I was just a little disappointed when I received last week's paper and found so many of our good writers had not written. I have not yet got this week's paper, but I hope they will all come with a wood letter for it.

I see the election there was very close. It made me think of some of the political battles back in the eightys that we had in old Marion Co. It proved that there was good men on both sides, and the success of either party insured the people of the county good men for officers. I am not acquainted with very many of the candidates.

We have had another severe storm on the gulf, occurring the 18th. Much property was damaged at Corpus Christi and other smaller places—and some loss of lives. The number is not yet known.

There is nothing new about the Mexican trouble for the last few days.

Dallas is doing very much building. They are now starting three buildings and one of them will be 14 and one 18 stories high. I have not been advised about the height of the other one. There is several other business houses of from 3 to 5 stories.

Our new terminal stations are about completed; one railroad station where all trains will enter and leave, one interurban station and office where all interurbans will enter and depot. Lone Star.

WHITWELL MAN USES "HERBMYSTIC"

WITH ASTOUNDING RESULTS

Gains 37 Pounds and Begins to Eat Anything after Taking Just Seven Doses—Cured of Stomach Trouble After 21 Years Suffering.

Mr. John T. Christain, of Whitwell, Marion county, Tenn., says he is preaching the gospel of good health, after using four bottles of "Herbmystic." Nature's Greatest Tonic, the superior preparation. Here's the startling facts in his case: "I am glad to have the opportunity to explain my case to you. I have had what the doctors called stomach trouble for 21 years. I have tried all kinds of medicine that was recommended for indigestion. I have spent hundreds of dollars for the different remedies, but did not get any relief. First of June I had to stop eating anything except a little soup, every time I would eat anything I would have smothering spells, shortness of breath, palpitation of the heart and I got so I couldn't walk to my work, which was a mile away, had to rest five and six times. I got so weak I had about given up all hope of ever getting well. Two of the best doctors in town did all they could for me, but no relief. I had not eaten a bite of bread in four months. On Oct. 16th I bought a bottle of "Herbmystic." I weighed 120 pounds. After taking seven doses, I ate bread, and began to eat anything I wanted to eat and it did not hurt me. I did not

smother, shortness of breath all gone, can walk to my work in forty minutes, where I took two hours to go. Nov. 16th, one month later, I weighed 159 pounds. I gained 37 lbs. in one month. Today, Dec. 21, I weigh 157 lbs. I am feeling better than I have felt in 21 years. I have used four bottles of "Herbmystic" and I can't praise this medicine high enough for what it has done for me. It has cured me of Stomach trouble, Liver, and Kidney disease. I am as well as I ever was and I don't feel any effects of stomach trouble any more. Many thanks to you for this great remedy. I am preaching the gospel of good health telling the people what "Herbmystic" has done for me. Will do the same for them. I wish every person in the world that is sick would use one bottle and be convinced that they can be cured. The druggist can not keep it. They got in a supply a few weeks ago and it's all gone."

This is one of many statements that we have received from grateful people, certifying to the wonderful curative powers of this superior preparation. "Herbmystic" is sold in Sequatchie Valley by Evans & Pope, Whitwell, J. W. Simpson & Son, Jasper, Jno. J. Ingle, South Pittsburg.
